Welcome to the U19 Men's World Floorball Championships 2025 in Zurich!

Dear Floorball Friends,

It is with great pleasure that I welcome you all to the **13th Men's U19 World Floorball Championships (WFC)**, held from **28th of April to 4th of May 2025 in Zürich**, Switzerland.

Since the first edition in 2001, the U19 WFC has served as a springboard for emerging talent, uniting the global floorball community through youthful energy, skill, and sportsmanship. This year, we return to Switzerland—the host of the 2007 U19 edition and, more recently, the unforgettable Men's WFC 2022. Now, the Swiss Life Arena once again opens its doors, offering the stars of tomorrow the chance to shine on the same stage as their adult counterparts.

This championship brings together 16 nations, with 9 teams qualified by ranking and the rest earning their places through the qualifiers with the last held in Latisana, Italy, the future host of the 2026 U19 WFC. We extend a warm welcome to all teams and fans joining us in this celebration of youth floorball.

Importantly, this tournament also includes the **2nd edition of the 3v3 World Floorball Championships**, held in Winterthur on 2–3 of May. With **45 teams from all continents**—25 men's and 20 women's—this dynamic format brings together both new and experienced floorball nations in an inclusive and thrilling way. The 3v3 format plays a vital role in the IFF's efforts to expand access and participation, especially for countries in earlier stages of development.

Today, as we look ahead, our greatest priority is **development**. The IFF is undergoing structural changes to better serve our member federations, with the goal of strengthening national federations and offering support in the new unique development program 4F (FloorballFit-ForFuture). More than 30 federations are now actively taking part in this new program. We are building a future where all federations—no matter their size—can grow, develop, and thrive.

I invite everyone to follow the tournament through the **IFF App**, where matches of both WFCs, the U19 and 3v3 events, will be streamed. To the local organising committee, the volunteers, the sponsors, and all those who have worked tirelessly to bring this event to life—thank you. And to all players, coaches, and fans—enjoy every moment.

Together, we build the future of floorball.

Yours in Floorball,

Filip Šuman

Greetings from the Central President of swiss unihockey

Dear Floorball Family,

Welcome to the Men's U19 World Championships 2025 in Zurich. 18 years ago, the last and so far, only U19 Men's WFC took place in Switzerland, in Kirchberg. So, its time, that we welcome the best young male floorball talent in our country again!

The 16 best nations in the world have qualified for the tournament in Zurich and will compete against each other at the Saalsporthalle and Hardau, where the group stage will take place, and the Swiss Life Arena for the final games.

Hosting major international events is crucial for Swiss floorball and allows us to grow our favourite sport beyond borders.

2022 we could celebrate a huge floorball festival during the Men's World Championships. The memories we made in front of the big crowds will last a lifetime. We are looking forward to give the #StarsofTomorrow the same stage. For them, it will be an unforgettable experience to play in such an arena, one of the most modern in Switzerland: the Swiss Life Arena. Tournaments like this give young athletes the chance to shine on the big stage and realize their dreams.

The U19 will not be the only floorball highlight in that week. Switzerland has a large community of players and fans of the small court floorball. That's why we are delighted to be hosting the second 3v3 WFC. In the AXA Arena in Winterthur, 45 teams from all over the world will compete on the small court and ensure a unique tournament.

Last but not least, a big thank you to the many volunteers, our sponsors, the cities of Zurich and Winterthur, the Canton of Zurich, the Federal Office of Sport, Swiss Olympic and the floorball clubs Grasshopper Club Zurich and HC Rychenberg Winterthur for their generous support and their great and indispensable commitment.

Let's look forward to exciting matches and go Switzerland!

Daniel Bareiss

Central President swiss unihockey

Greetings from the Head of the Department of Sport and Education

Dear teams and floorball enthusiasts

Floorball is booming and growing worldwide! The sport is becoming even more popular in Switzerland - the host country of the Men's U19 World Championship. The increased interest is due in part to major events such as the Men's World Floorball Championships 2022 in Zurich and the Women's World Floorball Championships 2019 in Neuchâtel. The events attract a broad audience that extends far beyond floorball borders.

The world's best young players will come to Zurich at the end of April 2025. The city of Zurich is of great importance for Swiss floorball due to its strong club structure and infrastructure. It has a long tradition in both grassroots and elite sport and attracts many talented players. Floorball is also part of the curriculum at elementary school and thus contributes to the sporting activities of children and young people.

The sporting activities offered by floorball clubs are largely supported by voluntary commitment, particularly among young players. By staging the U19 World Floorball Championships and the accompanying measures, the commitment of the clubs and the importance of volunteer work in sports clubs will be strengthened in the city.

Over six tournament days, 16 nations will compete with the aim of lifting the trophy at the final match on May 4, 2025 in the Swiss Life Arena. The tournament offers young players the opportunity to compete against their peers at the highest international level. Games at this level are often associated with great pressure and high expectations. Players learn to deal with this pressure, which is an important prerequisite for a successful career.

We look forward to welcoming the 16 nations and their most promising young talents to Zurich.

Head of the Department of Education and Sport

Filippo Leutenegger

#FreeOfLimits

#wfctampere2026

#wfcturku2027

Since equality was agreed upon as the starting point for the planning of the events, a unified theme but individual logos were created for both WFC's.

The aim is to strongly link the tournaments to the Finnish Floorball Federation's equality program, which seeks to break boundaries in a broad sense.

This is exactly what the slogan of the WFC's, "Free of Limits" represents.

The logo combines several elements. A tree grows from the earth, reaching towards the sky. Each branch represents an individual, and together the branches form a large, celebrating crowd.

The logo resonates well with the slogan of WFC's and conveys a sense of freedom.

The shared logo for WFC 2026&2027 is simple and timeless. For the men's tournament, a bold outline version of the logo will be used, while the women's tournament will feature a colourful and rich version. Visually, the tree "grows" as the championships progress.
